

## Bhagyashri Bharatbhushan Bhadane SOFTWARE DEVELOPMENT (ABAP)

Phone : +91 8830734342 / E- Mail : bhagyashri27bhadane@gmail.com

LinkedIn : <https://www.linkedin.com/in/bhagyashri-bhadane-7008221b1/>

A skilled SAP ABAP developer with nearly 2.5 years of experience, targeting to secure a challenging role as a Software Developer in a dynamic organization where to utilize existing skills to drive premeditated decision-making and business growth.

### || Profile Summary

- Expertise in designing, coding, testing, and debugging ABAP programs, ensuring the development of efficient and error-free software solutions
- Proficient in creating and managing **SAP design** and technical specification documents, conducting thorough testing (unit, integration, and release) to ensure functional validity and meet quality assurance requirements. Adhere to rigorous testing standards and client expectations to deliver high-quality applications that align with industry standards
- Collaborating closely with functional consultants and business users to understand requirements and deliver tailored solutions that effectively meet the organization's needs
- Proactively engaging in performance tuning activities, optimizing **ABAP**-based systems for enhanced efficiency and scalability
- Proficient in troubleshooting and resolution of issues, guaranteeing the stability and reliability of ABAP applications in production environments, ensuring smooth operations and client satisfaction
- Specializing in developing and maintaining applications using the ABAP programming language, contributing to the continuous improvement and evolution of SAP-based solutions
- Expertise in **debugging, conducting unit testing**, and coding to deliver high-quality ABAP applications
- Integrating and implementing processes: seamlessly integrating ABAP applications with other systems
- Utilizing **ServiceNow application** for efficient issue resolution, streamlining the incident management process
- Engaged in comprehensive self-study to gain a strong understanding of ABAP on HANA concepts

### || Achievements

- Honored with **RISE -INSTA Award**
- Consistently receiving **multiple appreciative** emails from clients, recognizing the quality of work and performance

### || Core Competencies

~ ABAP Development	~ Unit Testing	~ Integration and Implementation
~ Reports and Documentation	~ Defect Tracking /Debugging	~ Quality Assurance
~ Requirement Gathering	~ Software Development Lifecycle	~ Project Execution

### || Certifications

- SAP- ABAP, Infosys

### || Technical Skills

~ABAP-DDIC Object	~ Reports/Interactive Reports/ALV	~ ALE-IDOCs
~ Function Modules/	~ RFC	~BAPIs/BADI Implementations
~ Panaya	~ Service Now	~ Active Control

## || Work Experience

### Senior System Engineer

Infosys, Pune, Since Sept' 22 till date

#### Key Result Areas:

- Currently engaged in the migration projects related to the finance domain, accommodating the code remediation as required and **independently** handling client requirements for enhancing existing functionalities.
- Completed **end-to-end implementations** for migration projects independently being a **SPOC**
- Adding custom code within enhancement points of a standard function modules to handle specific validations during the standard IDOC posting process
- Evolving a background job to bridge the gap between the existing process and the new process implemented by the tool
- Creating technical specification documents and directing functionality testing in the User Acceptance Testing (UAT) phase
- Performing technical validations and verifications once the code is moved to the production environment
- Confirming the stability and reliability of the tool during live operations
- Created background jobs to synchronize the data in the table with changes in the Finance data, for accurate and up-to-date information
- Supporting end-users Acceptance Testing activities, and participating in Production Operations and Release Management support
- Continuously employed on complex algorithms and calculations to simplify processes for clients, improving efficiency and value-added solutions
- Conveying technical concepts and updates to clients and updates to ensure clear understanding and alignment

### Systems Engineer

Infosys, May'21 – Sept'22

#### Key Result Areas:

- Acquired training in SAP ABAP and SQL enhancing skills in these programming languages for application development and data manipulation
- Contributed to the creation and testing of test cases for the S/4 upgrade
- Utilized debugging techniques to identify root cause and resolve issues, safeguarding a smooth transition and functionality of the upgraded system
- Analyzed the Field status group level details to provide the insights of existing settings.
- Designed and developed the solutions to automate the generation for change pointers for the data updated in newly created custom tables via newly added custom segments.
- Assuming a vital position in the end-to-end testing of the MOZART project to guarantee its flawless integration with other systems and processes
- Steered comprehensive technical specification documents for the MOZART requirement, outlining the design and functionality of the application
- Conducted/supported thorough testing of all the code developments in the Unit testing and User Acceptance Testing (UAT) phase, to certify its functionality and compatibility with the desired requirements
- Performed UAT testing for various transactions in S4 HANA boxes which covered FI related, IDOC related, workflow related and data transfer tcodes.
- Playing the key point of contact for the client regarding ABAP applications on the back- end, confirming effective communication and addressing their requirements

## || Education

- B.E, (Computer Engineering), SSVPS COE Dhule, 2020
- 12th passed from Z.B.PATIL junior college, Dhule, 2016
- 10th passed from Chavara English Medium School, Dhule, 2014

## || Soft Skills

~Planner

~ Problem Solver

~ Critical Thinker

~ Collaborator

~ Motivator

~ Analytical

## || Personal Details

**Date of Birth:** 27<sup>th</sup> October 1998 | **Languages Known:** English, Marathi, Hindi | **Mailing Address:** Walwadi, Dhule, 424002
