---

Data Engineer with 4 years of experience working in the financial domain. Skilled in Python, SQL, spark ETL, and Data Management techniques. Seeking an opportunity to leverage my existing skills and experience as well as gain relevant exposure in SQL-based technologies.

Work Experience

Associate Data Engineer, Commonwealth Bank of Australia, Bengaluru   **May 2022 – Present**

- Enhanced existing tables by incorporating new attributes, resulting in a successful early delivery and marking the debut of my initial release.
- Engaged in a migration project, actively contributing to the development of essential logic and ensuring comprehensive testing. Also, played a key role in establishing novel pipelines to facilitate the seamless flow of relevant data for reporting purposes.
- Explained data results and discussed how best to use data to support project objectives.
- Collaborated with cross-functional teams to design, develop, and maintain data pipelines, ensuring efficient data extraction, transformation, and loading processes.
- Participated in troubleshooting and resolving data-related issues.

Skills : Hadoop(HDFS), Spark ETL(framework), Teradata(GDW), SQL, shell scripting, GitHub

Software Engineer, Accenture, Mumbai   **Aug 2019 – April 2022**

- Experience of working on a Finance project as a Data engineer in Insurance and Reinsurance, where I cross-skilled myself as ETL developer and worked on the development and enhancement of T-SQL, SSIS, SQL server, Azure Dev-Ops, C# scripting.
- Worked on key deliverables like integration of new data source systems, transforming, and data cleaning from source to match the data in the warehouse. Generating various keys and indicators to match the data in the table.
- Designed and developed a reconciliation framework including dynamic scripts to reconcile the data of our data warehousing against source systems and building consolidated layers to push data to destination reporting.
- Coordinate with business stakeholders for requirement gathering of development and understand the business process to meet and deliver more of such deliverables.

Education

Usha Mittal Institute of Technology, Mumbai   **Jul 2015 - May 2019**

Bachelor of Technology| GPA – 8.88 | Major: Electronics

Languages and Technologies

- Programming Languages/Databases - Python, Scala(basics),SQL, HDFS, Snowflake(basics), Teradata
- Others - GitHub, shell Scripting, Spark ETL,SSIS, Azure Devops, teamcity

Courses and Achievements

- Microsoft Azure fundamentals certified (08/2020 - Present)
- Skillsoft Python Certified (07/2020 - Present)
- Secured 1st position at Table Tennis Mix double event organized by Avanade.
