WORK EXPERIENCE

Accenture (Client: Shell - Oil & Gas)   ***(2019 – Present)***

- Conversion Tool Report - To save extensive manual workload time by automating the export function from Excel data into SAP. (BAPI utilized to Update Operations in PM Work Orders in Bulk).
- Performance Tuning: Identified and analyzed ST12 trace for user-exit causing performance issues for this report called inside the BAPI as a continuous improvement activity of the system.
- ERS Settlement Advice Report - To generate Notice of Payment (NOP) Form in Japanese Language and to archive the Form per Billing document along with email functionality to selected vendors for the user. (*Built NOP in **Adobe Form***)
- Auto-Security Custom report - To trigger automatic deadline emails of roles to the users. This helped users to renew their roles before getting expired.
- Experience with third-party solution namely Blackline connector in SAP. Implemented BADI with Blackline extractor reports to extract Joint Venture & Legal Entity for GL and Open Item Extract FI module.
- Enhanced Inbound Interface program for Mass processing of flat files from Global Provisioning tool to SAP. *(Removed the restriction to process 5 files per day.)*
- Custom Program to activate/deactivate maintenance plan in bulk for Plant Maintenance users.
- Enhancing custom programs providing APIs to Riskpoynt interface with MuleSoft as middleware.
- Experience in SPDD & SPAU Upgrade activities, OSS Note Implementation, PANAYA tool.
- Experience in OTC space with multiple ABAP requirements on ALE/IDOCs, output types, reports, sales/contract screen enhancements etc.
- Experience with multiple requirements in MM space involving PO print output smartform/script changes.
- Experience with FI workflow enhancements.
- Involved in POC works to bring about new enhancements into the system.
- Knowledge in OOPS ABAP, ABAP 7.4 New syntax, Know-how of code push down techniques: CDS, AMDP
- Worked on core SAP modules: Plant Maintenance PM, MM, SD, FI
- Acquainted with Development tools: SAP GUI, Eclipse (ADT), Visual studio code.
