PROJECTS

Curtis Brown, 395 Days

Curtis Brown Publishers needed a Force.com cloud application which could centralized the different international journal processes. Curtis Brown Publishers staff creates accounts for different international journal and editor, reviewer and chief editor handles the research paper submitted by the researchers. Editor allocates the research papers to respective reviews as per his expertise in the domain. Reviewers review the research paper and provide the comments as per contents of research paper and accept or rejects the research paper. Author if want then registers the research paper and international journals publish the research paper...
