- Proficient in Functional testing, Integration testing, Smoke testing and Regression testing.
- Retesting of fixed defect & classifying them as closed or re-open.
- Collaborated with the Development Team during any Bug Fix.

TECHNICAL SKILLS

Programming Language : Core Java

Operating System : Windows

Testing Tools : Selenium, Web Driver, TestNG, Eclipse

WORK EXPERIENCE

Currently working in **Pentachrome Technologies Pvt. Ltd.**

PROJECT HANDLED

Current Project: GEBET

Client : Rubicom

Application : Web Based Application

Description: It's tough to remember every client conversation. But a desk covered in sticky note reminders or a corkboard cluttered with business cards isn't the solution. If they are digging through their email messages, then finding the information they need is taking them twice as long as it should. Or, worse, follow-ups and deadlines slip through the cracks. The software compiles all their company information systematically as they collecting it. That means they stay organized and in-the-know of what to do next.

RESPONSIBILITY:

- Involved execute all manual test cases and understood the test cases before starting Automation.
- Involved in segregating the test cases are automatable or not automatable.
- Automated basic flow of the application.
- Identifying Test Scenarios for writing Automation Test Scripts.
- Execution of Test Scripts and analyzing the results.
- Reviewed test scripts as per the automation scripting standard
- Experience in creating batch/suite file for my project.
- Performed Data Driven Testing & handled Exception
- Performed Smoke, Regression, Functional Testing.
- Experience in modifying the existing test scripts.
- Involved in Automation Defect Tracking.
- Involved in integrated Hybrid frame work.
- Involved in interaction with the development team and other team members regarding issues.
- Participated in Daily Standup meeting (scrum meeting), weekly and monthly meetings.

Project2 : **KIVA**
Client : Novatek
Application : Web Application

Description : Without a superior system to manage the many different business processes in the company, there will inevitably be an implementation of widely different applications to manage and control day-to-day operations. This leads to chaotic data transfer, time-consuming workflows and, not least, a security gap due to lack of access control. An Fitore system binds the separate work processes into one overall system and presents data through a unified interface..

RESPONSIBILITY:

- Reviewed and understanding the requirements.
- Involved in analyzing the High level design documents.
- Writing a test scenarios and test cases for assigned modules.
- Executing all test documents.
- Involved in Logging & Tracking the Bug.
- Retest the fixes.
- Prepare Bug report.
- Prepare Test execution report.

EDUCATION QUALIFICATION

- Bachelor of Computer Application from Magadh University.

PERSONAL PROFILE

Name : ROHIT KUMAR
DOB : 28-01-1998
