Swimming

Profile

Secure a responsible career opportunity to fully utilize my training and skills, while making a significant contribution to the success of the company. To enhance my educational and professional skills in a stable and dynamic workplace.

Experience

July 2022 — Present

Data Engineer Intern | Nubax Data Labs Pvt Ltd | Belagavi.

- Utilized PySpark to distribute data processing on large streaming datasets to improve ingestion and processing speed of that data
- Built basic ETL that ingested transactional and event data from a web app

Campus Projects

Flight Fare Analysis Using Machine Learning

It is a machine learning project Which used to predict the air tickets prices, the purpose of the Model is to study the factors which help us to study about the fluctuations in the airfare prices and how they are related to the change in the prices. Build a system that can help buyers whether to buy a ticket or not.
