PROJECT SUMMARY

Domain – Investment Banking

Description :

Since the inception of the internet, a number of banking services, as well as activities, can be transacted or accessed on an online platform. This also applies to the numerous forms of trading as well as investment. Saxo Bank is one such institution that made this move by offering online services to customers. Clients of this Danish-based bank can access Saxo Bank trading on their Internet-connected devices among other investment services offered. The Saxo Trader suite runs on a myriad of devices and operating systems including Windows on desktops.

Domain – Telecom Billing

Description :

A fully managed, hosted modular software suite, including OCS, Billing, CRM, Selfcare and Business Intelligence, that supports the end to end, back office operations of wholesale and retail telecoms providers and other subscription-based services. From initial sale, through provisioning, in-line customer management, billing, payments, collections and reporting, the comprehensive ALL in ONE suite delivers highly responsive, scalable and feature rich functionality to support business growth.
