EDUCATION

Bachelor's
Mechanical JNTU(KKD)

SKILLS

Technical Skills:

Databases: Oracle 8i/9i/10g/11g,
SQL Server, MS Access.

Scripting: SQL, UNIX Shell
Scripting and JavaScript.

GUI : Oracle Forms 6i/9i/10g and
Reports 6i/9i/10g

Languages: C, C++, PLSQL,
HTML, CORE JAVA, UNIX Shell
Scripting.

Tools : SQL Developer, SQL
Navigator, TOAD, SQL plus,
PUTTY, WINSCP, TOAD

Applications : MS Office and MS
Visio.

Operating Systems: Windows 7,
Windows Vista, XP, UNIX, Linux.

CAREER OBJECTIVE

OCA – Oracle Certified Associate in PL/SQL. Around 4+ years of experience in PL/SQL Programming (ORACLE 10g/11g). Good experience in Oracle 10g and 11g SQL and PL/SQL. Solid working knowledge of RDBMS concepts. Rich experience in writing SQL queries, Views, Materialized views, PL/SQL procedures, functions, packages, triggers, cursors, collections, Ref cursor, cursor variables, System reference cursor, Dynamic SQL. Experience in developing External Tables, Joins, Indexes and sequences. Experience in query optimization, performance and tuning (PL/SQL) using SQL Trace, Explain Plan, Indexing, Hints, Bulk Binds, Bulk Collect, Creation of global temporary tables and table partitioning.

WORK EXPERIENCE

Senior Oracle PL/SQL developer

WATI.INC

2019 - 2023 / REMOTE

- Develop/Configure software feature(s) according to design document & enterprise software standards.
- Identify gaps in the system & provide recommendation from data perspective
- Worked in multi-disciplinary environment with Architects and Business Analysts using waterfall and agile project methodologies
- UnixLinux environment and developing shell scripts.
- writing triggers, views, packages, procedures, functions.
- Built complex queries using SQL and wrote stored procedures using PL/SQL.
- Performed SQL and PL/SQL tuning and application tuning using various tools like tkprof, autotrace and dbms_SQLtune.
- Different file handling techniques SQL Loader UTL File External Tables.
- Supporting client in performing user acceptance testing
- Trouble shooting Production issues.
- Worked with the Business analysts and the DBA for requirements gathering, business analysis, testing, metrics and project coordination.
- Loaded external files Data into MS SQL Tables using SQLLoader.
- Created Tables, Views, Constraints, Index (B Tree, Bitmap and FunctionBased).

MPHISIS

PLSQL Developer

2018 - 2019

- Developed SQL and PL/SQL scripts to transfer tables across the schemas and databases.

- Wrote conversion scripts using SQL, PL/SQL procedures, functions, and packages to migrate data from one database (SQL Server) to the Oracle platform.
- Worked on Various OBIEE Reports as part of OBIEE Implementation.
- Executed queries and reports during Everest Transition Tests and its follow-up with the data migration team regarding data discrepancies.
- Find solutions for issues, debugging related to configuration, code setup, identity issues and error handling.
- Use structured coding methodology and "code once use many times" methodology so that the developed code is reusable
- Develop and test new functionality or support existing applications.
- Prepared feasibility studies to evaluate requirements for server and software upgrades.
- Experience in creating Job Schedulers, Cursors, and exception handling in PL/SQL.
- Working on Oracle PL / Sql, Sql, Shell Scripting, Unix / Linux, Java, Python.
- Given assistance to other departments and aid in the product development and maintenance.
- proficient in SQL and ETL processes, ETL and DB performance tuning, table partitioning.
- deployment and troubleshooting on Application Server software especially Oracle Weblogic.
- Test cycle rounds including End of Days, migrations and Integrations for Oracle FLEXCUBE.
